## YOGA STUDENT GUIDELINES

### Yoga is for You

---

*Respect and listen to your body. Know that your body may be different today than it was yesterday. Adjust the pose to suit you, modifications can be made.*

*Explore your limits and challenge yourself when ready with an attitude of self-compassion, never pain.*

*Yoga is non-competitive. Whenever you are on your mat, be in the moment of 'now'. Like life- the Yoga practice is about the journey, not the destination. Don't judge yourself or the experience.*

*Do not eat 2-3hrs before a Yoga class, as it takes a good deal of energy. Some fruit will be OK.*

*Drink plenty of water after class.*

*Tell your teacher of any injuries, illness or trauma which may affect your practice.*

*Arrive at least 5mins before class so you can settle and center yourself.*

*Switch off your mobile phone.*

*If you arrive late, enter quietly and mindfully. Unroll your mat outside etc to minimise noise.*

*During menstruation avoid inversions, and take it easy at this time.*

*Feed back is welcome.*

*Enjoy, smile.*
